DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9, 11, 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 recites the limitation "the mode-matched beams" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 recites the limitation "the pump radiation" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 11 recites the limitation "the axis" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 14 recites the limitation "the pump beam" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 14 recites the limitation "the diode current" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 8, 10, 12, 13 are allowed.

The following is an examiner's statement of reasons for allowance:

The following is an examiner's statement of reasons for allowance:

Regarding claims 8, 10, 12,

None of the searched prior arts alone or in combination discloses the claimed pulsed laser arrangement with the recited structural combination of independent claim 8, in particular the multistage laser amplifier provides in each stage a small signal amplification of more than 10 (10db) and the total of all the stages provide a small signal amplification of greater than 1000 (30 db).

Regarding claim 13,

None of the searched prior arts alone or in combination discloses the claimed pulsed laser arrangement with the recited method steps in particular the steps of the multistage laser amplifier providing in each stage a small signal amplification of greater than 10 (10 db) and the total of all the stages greater than 1000 (30 db).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 9, 11, 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
